Members of NEOA may purchase the relevant colour badge on completion of three events, finishing above the colour line. For further details, contact Margaret Crosby (0191 2685449)

**Officials:**

Organiser - Patrick Smyth  
Planner -  
Controller - John Crosby (NATO)

**Organiser's comments - Patrick Smyth**

My apologies first for the late arrival of these results. They have gone missing in the post twice! Their final arrival with me coincided with a weeks holiday so consequently they are so late. Secondly the toilet tents were rendered unusable when my car was written off on the Saturday prior to the event - checking the tents was one of the last things on my mind at that moment. So apologies to everyone. Hopefully I have managed to include part one maps for those people who did not collect them on the day. If anyone has not received their map please let me know. Lastly I must thank everyone who helped on the day and prior to it.

**Planner's comments -**

First off I shall start by apologising to those people running the colour coded courses, Long and Yellow, for the mistakes on the control description lists. The Long showed an extra control to that on the master map and the Yellow showed the wrong control number for the last control site - sorry!

Next I would like to thank John Crosby who used his vast experience to substitute for the lack of mine. He staged managed the whole thing and made the planner's task a pleasure.

I hope that everyone enjoyed their badge course. The lengths of the courses seemed to work out OK, given the easy running in most areas of the forest. None of the controls were planned to be difficult once the attack area was reached. Only one control was reported to me as being missing. This was number 713 - ditch end. The control was found to be in the correct place at the end of a small ditch when collected after the event.
